Effective on trade date Friday, October 1, 2021, and pending all relevant CFTC regulatory review periods, this Advisory Notice will supersede CME Group Market Regulation Advisory Notice RA1616-5 from December 12, 2016. It is being issued based on amendments to CBOT Rule 536.D. (“Customer Type Indicator (CTI) Codes”) that become effective on October 1, 2021, in connection with the September 30, 2021, closure of the trading floor for all products other than options on CME Eurodollar futures and options on CME SOFR futures.¹

Carrying firms must ensure that all give-up trades accepted by the firm contain the correct CTI code by the end of the trading day. In circumstances where an executing firm knows or is apprised of account ownership at order receipt time, the executing firm is also expected to submit the correct CTI code on the original execution record. In a give-up scenario wherein the executing firm does not know the account ownership of a trade intended to be given up to another firm, the executing firm should submit a CTI code 4 on the execution record. In this circumstance, the carrying firm must ensure that the correct CTI code appears on the trade by the end of the trading day.

For give-up trades where the execution information is submitted to the Exchange by a party other than the executing firm, such party is expected to submit the correct CTI code on the original execution record where such party knows or is apprised of account ownership at the time the trade is being submitted. If the party does not know the account ownership of a trade intended to be given up, then the party should submit a CTI code 4 on the execution record. In this circumstance, the carrying firm must ensure that the correct CTI code appears on the trade by the end of the trading day.
