This advisory contains information about the first week of firm testing for the migration of pit entry/search screens to FEC. The first test cycle will occur on Tuesday, March 14, 2006, and the second cycle will occur on Thursday, March 16, 2006.

Attached are test scripts locations, a schedule of the test dates and trade entry times available to testing firms.

Scope of Test

There will be two cycles of firm testing the week of March 14, 2006:

Tuesday, March 14, 2006

- Cycle 9 - Trade date March 14, 2006, will begin at 9:00 a.m. and end at 2:00 p.m.

Firms are required to submit or enter test trades as indicated on the published test scripts. Firms also have the option to enter non scripted trades into clearing if they choose. The scripts are designed to allow firms to become familiar with the new FEC trade entry, Bundle, Transfer and Fungible screens.

We strongly encourage firms to use these testing opportunities to ensure that they can:

- Submit CME and CBT Pit Trades from their back office systems or via the CME Front End Clearing (FEC) user interface.
- Enter CME Bundles in Front End Clearing user interface.
- Submit CME and CBT Pit trades and mark them for APS and ACS
- Enter CME and CBT Fungible Trades Via the FEC
- Load the TREX confirms for CME and CBT Pit trades to their bookkeeping systems
- Reply to CME Clearing House results of your test 207-2525
