TO: Back-Office Managers

DATE: March 30, 2006

ADVISORY #: 06-79

SUBJECT: Product Re-Classification and Trade Register Report Sort Changes

Please be advised that beginning Monday, April 3, 2006, Volume and Open Interest statistics associated with the Weather and GSCI products will be summarized and displayed under a new "Commodities and Alternative Investments Products" quadrant on the Daily Bulletin. These products were formerly summarized and displayed under the "Equities" quadrant.

As a result of this change, you will notice a new sort order of the print version of the Trade Register Report (CPM591). Beginning on Monday, April 3, 2006 the Weather products, which are currently grouped with equity index products, will be displayed within the CME agricultural product group. This will have no effect on the FIXML Trade Register data file.

If you have any questions or concerns please call CME Clearing Support at 312.207.2525 or email at ccs@cme.com
