

Advisory Notice

Clearing House

TO: Clearing Member Firms
FROM: Clearing House Department
ADVISORY #: 07-33
DATE: February 6, 2007
SUBJECT: **Sample Settlement Price Files for FXMarketSpace**

Sample settlement price files for FXMarketSpace™ produced by CME Clearing, are now available every day in their production locations and on the production time schedule, about 4:15pm Chicago time. Because live trading on FXMarketSpace has not yet begun, these are only sample prices.

The files for FXMarketSpace are available in the same location as CME settlement price files. On the Internet, files are located at ftp.cme.com/pub/settle. On the Firm FTP Server, files are available in the PUB/SETTLE directory. Because the files are small, they will only be available uncompressed.

Files are provided in both the positional-format used for CME and CBOT products, and in the new-and-improved FIXML format. They are available both with static filenames and with the business date in the filename. For example, for business date Tuesday, February 6, 2007, the following files will be available:

fxm.settle.s.txt	Positional-format, static filename
fxm.settle.s.xml	FIXML-format, static filename
fxm.settle.20070206.s.txt	Positional-format, date in filename
fxm.settle.20070206.s.xml	FIXML-format, date in filename
