

## Advisory Notice

Clearing House

08-125

TO: Clearing Member Firms  
Back Office Managers  
Service Bureaus  
Independent Software Vendors

FROM: CME Clearing

SUBJECT: **UPDATE: Important MQ Messaging Routing Upgrade – New Date**

DATE: June 20, 2008

**Please note that the CME Clearing internal MQM routing system upgrade scheduled to move to Production on June 21, 2008 has been rescheduled for *July 12, 2008*.**

This upgrade is currently in place in both of our test environments – Certification and New Release. We encourage firms and service providers to test sending and receiving clearing confirms in both Trex and FIXML (*for the limited time that TREX will be utilized*) to ensure that the upgrade will not impact their back office operations.

Expected improvements to the system include, but are not limited to, the following:

- Ability to replay messages by queue
- Ability to replay messages by message type (Pit, GAPI, Electronic, PNT, TREX, FIXML, etc)

If you have any questions or comments, please contact CME Clearing Services Group at (312) 207-2525 or via email [ccs@cmegroup.com](mailto:ccs@cmegroup.com).
