

Advisory Notice

Clearing House

09-477

TO: Clearing Member Firms

FROM: CME Clearing

DATE: October 29, 2009

SUBJECT: NYMEX Website Decommissioning Update

In a previous email notification, we shared our plans to decommission NYMEX.com and integrate NYMEX information into cmegroup.com to provide a single Web site containing valuable information on **all** of our products and services. This notification is to advise you of changes to NYMEX.com you will see in the coming days.

- When selecting a **CME Globex and/or Open Outcry product** from the Markets section of nymex.com, users will now redirect to the product page on cmegroup.com.
- The **CME ClearPort product** pages will have a few edits to the left navigation.
 - Margins- Redirect to the Margin information on cmegroup.com
 - Settlements- Redirect to a .csv OTC settlement file with the ability to filter and sort within the Excel file to find the product name or product code. **NOTE: This temporary settlement file will only be available for a few weeks until the final nymex.com decommissioning.**

Please remember to **bookmark the pages you are redirected to on cmegroup.com** to easily find the information upon your return visit.

Additionally, please note the following change to the settlement information:

Beginning on November 2, 2009, cmegroup.com will begin providing all settlement information in the CME Group standard text settlement format as well as a CSV format for Energy and Metals products only.

- **To prepare for the changes, you can visit www.cmegroup.com/market-data/settlements to view sample files and file layouts for these new reports.**

We appreciate your support as we move to a single Web site and continue to improve cmegroup.com to meet your needs.

Please send us comments and suggestions via the [Feedback](#) link at the top right corner of each Web page on cmegroup.com.

If you require navigation assistance for the Web site, please send an email to: info@cmegroup.com

Additionally, we invite you to participate in our user focus group program, CME Group:Idea Exchange, which will allow you to review functionality, participate in focus groups, and provide feedback on upcoming Web initiatives. [Join Now](#)
