SUBJECT: **Separate KCBT SPAN File to be Discontinued After April 22<sup>nd</sup>**

---

This past Monday, April 15, 2013, clearing processing for the Kansas City Board of Trade (“KCBT”) was integrated into CME Clearing.

Accordingly, all margin calculations for customer portfolios including positions in KCBT products, must now be done using the **CME SPAN** file.

**The separate KCBT SPAN file will be discontinued, and will no longer be available, after this coming Monday, April 22, 2013.**

As previously described, the KCBT products are provided in the CME SPAN file with an exchange acronym of **CBT**. The product codes are **KW** for Kansas City Hard Red Winter Wheat futures and options (with a SPAN combined commodity code of **KCW**) and **KWS** for the Kansas City HRW Wheat calendar swap contract.
