

TO: CME Span Subscribers

FROM: CME Clearing

ADVISORY No.: 15-196

SUBJECT: PC-SPAN Version 4.5 Build 588A

DATE: Friday July 10th, 2015

Please be advised that on Monday July 13th, 2015 CME Clearing will release a new build of PC-SPAN®, Version 4.5 Build 588A. This build includes support for hybrid spreads. It will be available for download through [CME Core](#) on Monday July 13th, 2015. Access to CME CORE requires a CME SMART CLICK ID. New users can register here: <https://login.cmegroup.com/sso/register/>.

This build upgrade is **not mandatory** as current products will not be affected. However, it is advisable that customers upgrade in order to run hybrid spreads for margin purposes.

Please contact the CME Clearing Risk Hotline at 312-648-3888 or clearing.riskmanagement@cmegroup.com if you have questions relating to this functionality. For any issues accessing the CORE website, please contact the CORE team at CME.CORE@cmegroup.com.
