ADVISORY #: Chadv 15-412

Date: December 02, 2015

SUBJECT: Product Modification Summary for Clearing Firms, Bookkeeping Software Providers, ISVs

### Product Listing Schedule Expansion

Effective Sunday, December 13, 2015 for trade date Monday, December 14, and pending all relevant CFTC regulatory review periods, please be advised that the New York Mercantile Exchange (EXCHANGE) will re-list contract months previously removed for several products listed below. In addition, changes to the product specifications and product names will be made for all products listed below on CME Globex and for submission for clearing on CME ClearPort.

NFG/NFG	NY 1% Fuel Oil (Platts) vs. Gulf Coast 3% Fuel Oil (Platts) BALMO Futures	NY 1% Fuel Oil (Platts) vs. Gulf Coast HSFO (Platts) BALMO Futures		

On October 6, 2015, Platts announced that it would update the specifications of its USGC 3% Residual Fuel oil assessment to reflect RMG 380 3.5%S quality fuel oil, as per ISO 8217 specifications, with effect from January 3, 2017. At the same time, Platts will rename the assessment as "USGC HSFO". Also on October 6, 2015, Platts recommended a one-time differential of \$1.45/barrel that may be used in amending all outstanding derivatives positions beyond and including January-2017 that will settle against the old Platts specifications for USGC HSFO<sup>1</sup>. The differential is based on an extensive analysis of the difference between the existing US Gulf Coast 3%S Fuel Oil (Platts Code: PUAZ00) and FO RMG 380 USGC Waterborne (Platts Code: PUBDM00) assessments from 2010 to 2015.
