Block Eligible / Minimum Block Quantity	No			
Exercise Price Intervals and Listings	<p>For Short Dated New Crop Corn Options: A strike closest to the previous day's settlement price of the underlying futures contract (the at-the-money strike), and strikes in integral multiples of five cents in a range of 25 percent above and below the at-the-money strike. If the previous day's settlement price is midway between two strikes, the at-the-money strike shall be the larger of the two.</p> <p>For Short Dated New Crop Soybean Options: A strike closest to the previous day's settlement price of the underlying futures contract (the at-the-money strike), and strikes in integral multiples of ten cents in a range of 25 percent above and below the at-the-money strike. If the previous day's settlement price is midway between two strikes, the at-the-money strike shall be the larger of the two.</p>			

Termination of Trading	Same as the last trade date of existing standard or serial options with the same contract month. Namely, the last trade date for any short dated new crop option for expiry in a given month shall be the last Friday which precedes by at least two business days the last business day of the calendar month preceding such option's named expiry month. If such Friday is not a business day, then the last day of trading in such option shall be the business day prior to such Friday.																																																																			
Final Settlement Price	0.00125 or 1/8 Cent																																																																			
Final Settlement Date	Same as LTD																																																																			
Delivery	Physical
