

DATE: November 20, 2015

NOTICE #: MKR11-20-15

SUBJECT: Amendments to Rulebook Chapter 7 of the New York Mercantile Exchange, Inc.

In connection with the listing of the Lead Futures contract physically delivered in the Continental United States and the European Union on November 23, 2015, pending all relevant CFTC regulatory review periods, the New York Mercantile Exchange, Inc. (NYMEX or Exchange) will amend Chapter 7 of the NYMEX Rulebook ("Delivery Facilities and Procedures") (please see Appendix A to [NYMEX Submission #15-469](#) dated November 4, 2015) in order to incorporate the conditions for onboarding of warehouses, load-out, and registration of lead for delivery against COMEX's Lead Futures contract.

The territory for the storage of lead delivered against the Lead Futures contract shall include the Continental United States and the European Union. The registration, delivery instrument (electronic warrant) and delivery procedures for lead shall be the same as those for all other physically delivered metals listed on the Exchanges. The load out procedures for lead shall follow the same process as those of the Exchange's base metal complex by giving preference to the load out of lead represented by COMEX cancelled warrants via primary conveyance (i.e., load out of COMEX lead via primary conveyance is given preference to load outs resulting from the warehouses' cash business dealings).
