

# AutoCert+ BrokerTec EU Algo Simulator User Manual

7 Oct 2022

Neither futures trading nor swaps trading are suitable for all investors, and each involves the risk of loss. Swaps trading should only be undertaken by investors who are Eligible Contract Participants (ECPs) within the meaning of Section 1a(18) of the Commodity Exchange Act. Futures and swaps each are leveraged investments and, because only a percentage of a contract's value is required to trade, it is possible to lose more than the amount of money deposited for either a futures or swaps position. Therefore, traders should only use funds that they can afford to lose without affecting their lifestyles and only a portion of those funds should be devoted to any one trade because traders cannot expect to profit on every trade. All examples discussed are hypothetical situations, used for explanation purposes only, and should not be considered investment advice or the results of actual market experience.

## **Getting Started**

The AutoCert+ tool is an automated testing tool for validating application functionality. It provides an easy-to-use web interface for walking through CME Group certification scenarios.

To facilitate the process of connecting a customer application, CME Group provides a dedicated certification environment to allow customers to test their systems before they complete certification.

This Help system accompanies the AutoCert+ BrokerTec EU Algo Simulator test suite.

#### To run and navigate AutoCert+:

- 1. Log into the automated certification tool.
- 2. Review general AutoCert+ test suite navigation and general interview information.
- 3. Complete the Interview for this test suite.
- 4. Complete applicable test cases.

#### What's New

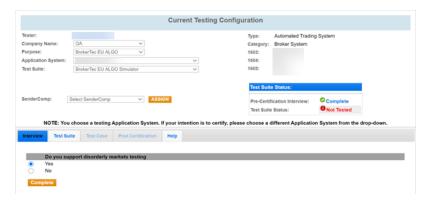

The list below illustrates the updates made to the AutoCert+ BrokerTec EU Algo Simulator Help system.

Date	Description
7 Oct 2022	Website and PDF format changes only.
24 Sep 2020	Initial release.

#### **Interview**

The interview consists of a series of questions about your trading application. Based on your responses, certain tests are required and others are optional. You must complete the pre-certification interview before running the test cases.

Select **Yes** or **No** in response to the interview question: "Do you support disorderly markets testing?" Select the **Complete** button.

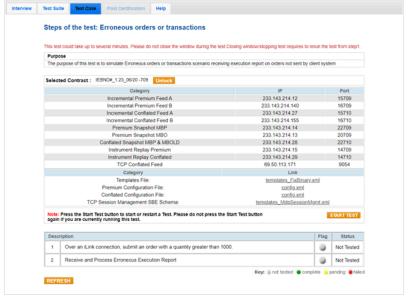

### **Erroneous Orders or Transactions**

The purpose of this test is to simulate erroneous orders or transactions scenarios in which the client system receives Execution Reports for orders not sent by the client system.

Note: See the iLink 3 message specification for more information on Execution Reports.

- 1. Select a **SenderComp ID** in the drop-down.
- 2. Select Assign.
- 3. From the **Contract** drop-down, choose the desired contract and click **Select**.

#### To run an Erroneous Orders or Transactions test:

- 1. Over an iLink connection, submit an order with a quantity greater than 1000.
- 2. Receive and process erroneous Execution Report message.
