

AutoCert+ Streamlined SBE Settlements and Statistics User Manual

28 October 2022

Neither futures trading nor swaps trading are suitable for all investors, and each involves the risk of loss. Swaps trading should only be undertaken by investors who are Eligible Contract Participants (ECPs) within the meaning of Section 1a(18) of the Commodity Exchange Act. Futures and swaps each are leveraged investments and, because only a percentage of a contract's value is required to trade, it is possible to lose more than the amount of money deposited for either a futures or swaps position. Therefore, traders should only use funds that they can afford to lose without affecting their lifestyles and only a portion of those funds should be devoted to any one trade because traders cannot expect to profit on every trade. All examples discussed are hypothetical situations, used for explanation purposes only, and should not be considered investment advice or the results of actual market experience.

Getting Started

The AutoCert+ tool is an automated testing tool for validating application functionality. It provides an easy-to-use web interface for walking through CME Group certification scenarios.

To facilitate the process of connecting a customer application, CME Group provides a dedicated certification environment to allow customers to test their systems before they complete certification.

This user manual accompanies the AutoCert+ Streamlined SBE Settlements and Statistics test suite.

Running and Navigating AutoCert+

▶ To run and navigate AutoCert+:

1. [Log into](#) the automated certification tool.
2. Review general AutoCert+ test suite [navigation](#) and [general interview](#) information.
3. Navigate to the AutoCert+ Streamlined SBE Settlements and Statistics test suite:

The screenshot shows the 'Current Testing Configuration' form. It includes fields for Tester, Company Name (QA), Purpose (Streamlined SBE Settlements), Application System, and Test Suite (Streamlined SBE Settlements and Statistics). There are also fields for Type, Category, and a list of IDs (1603, 1604, 1605). A 'SenderComp' section shows '303MSGN' and 'UNASSIGN'. A 'Test Suite Status' section shows 'Pre-Certification Interview' and 'Test Suite Status' both marked as 'Not Tested' with red icons. A note at the bottom states: 'NOTE: You choose a testing Application System. If your intention is to certify, please choose a different Application System from the drop-down.'

- a. Select a Company Name.
 - b. From the Purpose drop-down, select "Streamlined SBE Settlements."
 - c. Select an Application System
 - d. From the Test Suite drop-down, select "Streamlined SBE Settlements and Statistics."
4. Complete the [Interview](#) for this test suite.
 5. Complete the applicable test cases.
 6. Complete the certification process from the [Post Certification](#) tab.

What's New

The list below illustrates the updates made to the AutoCert+ Streamlined SBE Settlements and Statistics Help system.

Date	Topic(s)	Description
28 Oct 2022	Format	Website and PDF format changes only.
24 Nov 2020	All	Initial release

Interview

You must complete the pre-certification interview before running the test case.

Select your company type and click the **Complete** button.

The screenshot shows a web-based interview form with a navigation bar at the top containing links: Interview (active), Test Suite, Test Case, Post Certification, and Help. The form contains three sections of questions:

- Which of the following connection type does your application use?**
 - ☒ CME SBE UDP Multicast
 - ☐ CME Smart Stream on GCP SBE
- What types of Instruments will your system support for Settlements and Statistics?**
 - ☒ Futures
 - ☒ Options
 - ☒ Forwards
- What types of price format will your system support?**
 - ☒ Globex Price (tag 270-MDEntryPx)
 - ☒ Clearing Price (tag 9732-FormattedLastPx)

At the bottom left of the form is an orange **Complete** button.

Statistic Messages

This test verifies that your application can properly process statistics received in Market Data Incremental Refresh (tag 35 - MsgType=X) for Settlement and Statistics messages.

Interview Test Suite **Test Case** Post Certification TARGET+_BLANK+Help

Steps of the test: Statistic Messages

This test could take up to several minutes. Please do not close the window during the test. Closing window/stopping test requires to rerun the test from step1.

Purpose
The purpose of this test is to verify that your application can properly process statistics received in Market Data Incremental Refresh (tag 35 - MsgType=X) in Settlement and Statistics Messages.

Selected Contract: CBZ0 C2280 -672 **Unlock**

Category	IP	Port
Incremental Feed A	224.0.25.101	11692
Incremental Feed B	224.0.25.101	11792
Snapshot MBP	NA	NA
Snapshot MBO	NA	NA
TCP Replay	10.210.126.221	9672

Category: templates_FixBinary.xml
Configuration File: config.xml

Note: Press the Start Test button to start or restart a Test. Please do not press the Start Test button again if you are currently running this test. **START TEST**

Description	Flag	Status
1 Cleared Volume and Open Interest statistics were sent. Please validate the following values.		Not Tested
2 End of Day Session High/Low prices were sent. Please validate the following values.		Not Tested
3 A settlement price was sent. Please validate the following values.		Not Tested

Key: not tested complete pending failed

REFRESH

To run the Statistic Messages test

- Click **START TEST**.
- Click **REFRESH**.

Note: To restart the test, click **START TEST** and then click **REFRESH**.

- Enter the following values for the Cleared Volume and Open Interest statistics that were sent.

1	<p>Cleared Volume and Open Interest statistics were sent. Please validate the following values.</p> <p>Cleared Volume Qty (tag 5791-ClearedVolume): <input type="text"/></p> <p>Open Interest Qty (tag 5792-OpenInterestQty): <input type="text"/></p> <p>Submit</p>		Pending
---	---	--	---------

- Cleared Volume Quantity (tag 5791-ClearedVolume)
- Open Interest Quantity (tag 5792-OpenInterestQty)

- Enter the following values for the End of Day Session High/Low prices that were sent.

2	<p>End of Day Session High/Low prices were sent. Please validate the following values.</p> <p>High Price (tag 332-HighPx): <input type="text"/></p> <p>Low Price (tag 333-LowPx): <input type="text"/></p> <p>Submit</p>		Pending
---	---	--	---------

- High Price (tag 332-HighPx)
- Low Price (tag 333-LowPx)

- Enter the following values for the settlement price that was sent.
 - Globex Price (tag 270-MDEntryPx)
 - Clearing Price (tag 9732-FormattedLastPx)
 - Settlement (tag 731-SettlPriceType)

- a. Final Actual Settlement at Trading Tick
- b. Final Actual Settlement at Clearing Tick
- c. Final Actual Cabinet Settlement at Clearing Tick
- d. Preliminary Actual Settlement at Trading Tick

Recovery via TCP Replay for Settlements and Statistics Messages

This test verifies that your application can perform recovery via [TCP Replay](#) for Settlement and Statistics messages.

[Interview](#)
[Test Suite](#)
[Test Case](#)
[Post Certification](#)
[Help](#)

Steps of the test: Recovery via TCP Replay for Settlements and Statistics Messages

This test could take up to several minutes. Please do not close the window during the test. Closing window/stopping test requires to rerun the test from step 1.

Purpose
The purpose of this test is to verify that your application can perform recovery via TCP Replay for Settlement and Statistics Messages.

Description	Flag	Status
1 AutoCert+ sends Market Data book updates, then creates a gap to be recovered.	●	Complete
2 Establish a TCP Connection and submit a Logon message using your AutoCert+ credentials.	●	Complete
3 Receive a logon confirmation message.	●	Complete
4 Submit a Market Data Request message.	●	Complete
5 Confirm that your application successfully received the Streamlined SBE Settlements and Statistics message that was requested in the Market Data Request Message:	●	Complete
6 Receive and process Logout	●	Complete

Key: ○ not tested ● complete ● pending ● failed

REFRESH

▶ To run the Recovery via TCP Replay for Settlements and Statistics Messages test

1. Click **START TEST**.
2. Click **REFRESH**.

Note: To restart the test, click **START TEST** and then click **REFRESH**.

3. Receive market data book updates with a gap that needs to be recovered.
4. Establish a TCP connection and submit a Logon message using your AutoCert+ credentials..
5. Receive a Logon confirmation message.
6. Submit a Market Data Replay Request message
7. Enter the following tag values to confirm that your application successfully received the Streamlined SBE Settlements and Statistics message that was requested in the Market Data Request message:
 - tag 270-MDEntryPX
 - tag 9732-FormattedLastPx
8. Receive and process a Logout message.
