

CME Platform User Guide

10 February 2026

Disclaimer

Neither futures trading nor swaps trading are suitable for all investors, and each involves the risk of loss. Swaps trading should only be undertaken by investors who are Eligible Contract Participants (ECPs) within the meaning of Section 1a(18) of the Commodity Exchange Act. Futures and swaps each are leveraged investments and, because only a percentage of a contract's value is required to trade, it is possible to lose more than the amount of money deposited for either a futures or swaps position. Therefore, traders should only use funds that they can afford to lose without affecting their lifestyles and only a portion of those funds should be devoted to any one trade because traders cannot expect to profit on every trade. All examples discussed are hypothetical situations, used for explanation purposes only, and should not be considered investment advice or the results of actual market experience.

Getting Started

CME Platform provides commissioned Brokers, Traders, and Asset Managers with an interface where global OTC market transactions are entered for matching and processing by the CME Group clearinghouse. CME Platform allows for the submission of off-exchange OTC derivatives transactions that CME Group has designated as eligible for clearing only.

Transactions are subject to the [CME Group rule book](#) applicable to clearing-only products.

Participants can conduct their own transactions off-exchange, negotiate their own prices, and still take advantage of the Exchange clearinghouse by submitting the transactions through the CME ClearPort application on CME Platform, where:

- Brokers and Dual-Sided Submitters, Traders (when configured for single-sided trade entry), and Asset Managers have the ability to submit trades for clearing in real-time. When a Broker or Dual Sided-Submitter enters a trade on behalf of the account owner, trade details are entered into CME ClearPort. Once the trade is submitted, the account owners are notified.
- Traders have the ability to view their own submissions.
- Transactions entered and handled by Brokers, Dual-Sided Submitters, Traders, and Asset Managers are referred to as deals or trades.
- Deals: Pre-negotiated transactions with a broker or counterparty.
- Trades: Submitted, pre-negotiated deals that are matched, cleared, and reported to the market.

A submitted trade is checked for accuracy, then cleared.

If there are discrepancies in the information, the trade is rejected and the reason is provided in the [Trade Blotter](#).

i See also: The [client systems wiki](#) provides informational topics on the CME ClearPort API including support functions, workflows, messages, and interfaces that allow users to submit OTC trades for matching and clearing.

CME Platform Access

Authorized representatives of intended CME Platform market participants (individual, clearing firm, brokerage firm, trading firm) must complete the following to receive access to CME ClearPort application clearing services.

- Create and register a [CME Group Login ID](#) to authenticate access to CME Group applications and services.

CME Group Login is a self-managed, centralized user profile service that authenticates access to CME Group applications and services.

i **Note:** To ensure the best security and customer experience, CME ClearPort application users are encouraged to use a [supported browser](#).

- Complete and submit the [CME ClearPort Services Registration](#).
Users will receive notification when access is authorized.
- Use the [Account Management Service](#) to create and activate accounts to use ClearPort; including market types, products, credit controls.

▶ To log into CME Platform:

1. Enter or navigate to the following URL: <https://platform.prod.cmegroup.com>

i **Note:** To access the New Release version navigate to: <https://platform.uat.cmegroup.com>

2. On the login page, enter the **User ID** and **Password**, then select **Login**.

Note: After three unsuccessful logon attempts, the account is automatically locked. To obtain access to a locked account refer to the [CME Group Login User Help instructions](#).

If necessary, enter the [multi-factor](#) access code.

► **To logout:**

In the upper right corner, select the Settings () , then Logout ().

See also: [Settings](#)

- For login issues, contact Enterprise Application & System Entitlements (EASE), or access self-service functions on the CME Group Login webpage.
- For onboarding, application issues, or trade support, see: [Registering for ClearPort](#).

What's New

The list below illustrates the updates made to the CME Platform user help system.

Date	Topic	Description
February 10, 2026	Submitting a Derived Block Trade	Deal Entry supports Derived Block trades for futures.
Jan 14, 2026	Product Finder , Deal Entry , User Roles , and Block Trades	Block trades interface, options strikes, broker and dual-sided submitter role, and voice brokered indicator
September 15, 2025	Claiming/Declining a Deal	Added claim/decline for Single-Side deals.
June 12, 2025	Deal Entry & Blotter	Added Single-Side Buy and Single-Side Sell to Trade Side selection.
May 17, 2025	All	initial publication

User Roles

ClearPort allows participants multiple ways to enter executed OTC deals for clearing services. The exchange is responsible for setting up firms and assigning firm and user permissions. Clearing Members (CM) [create accounts](#) (using Account Management Service) and assign Broker and Asset Manager relationships. A single firm can operate more than one business model.

The following **Firm Type / Roles** are available for entitlement assignment.

Firm Type	Description
Clearing Member	<p>Clearing Members set up trading accounts for Trading Firms and manage the account risk.</p> <p>Clearing Member firms with On-Behalf-Of (OBO) entitlement can submit trades on behalf of active or passive clearing firms.</p>
Trading Firm	<p>A Firm that is the beneficial owner of one or more trading accounts held with a Clearing Member. A Trading Firm can have a relationship with one or more Clearing Members. While other Firm types (Broker Firms, Asset Manager Firms) can have permission within CME ClearPort to act in the Trading Firm's trading account(s), only a Trading Firm can be the owner of a trading account.</p>
Single-Side Trading Firm	<p>Trading Firms must “opt in” to directly transact on single-sided deals by registering as an Active Trading Firm. However, Trading Firms that transact through a Broker using single-sided trade entry do not need to register as an Active Trading Firm. All registered Brokers and Asset Managers are automatically eligible for single-side trade entry with no additional registration required.</p> <div data-bbox="305 989 1336 1115" style="border: 1px solid blue; padding: 5px;"> <p>Note: Participants should be aware that the list of Brokers, Active Trading Firms and Asset Managers for a specific product is shown in a dropdown menu to other participants in that market when a trade is being entered.</p> </div> <p>Trading Firms can have multiple clearing firm relationships with on-behalf-of (OBO) entitlement. OBO trading firms cannot submit trades.</p> <p>To opt in or out, notify CME Enterprise Application & System Entitlements (EASE).</p>
Broker Firm	<p>Broker Firms can enter deals. A Broker Firm can be selected as a Broker with respect to a trading account by the Clearing Member. A trading or clearing firm can register as a Broker if seeking to book a dual-sided deal, even if not acting as a transaction intermediary.</p>
Asset Manager Firm	<p>An Asset Manager Firm can be selected to submit deals in Clearing Member trading accounts. If the Clearing Member confirms the Asset Manager Firm has authority to act, the firm can enter single-sided deals for those trading accounts.</p>

User roles are assigned by the CME Group when the firm is established.

Role	Description	Trade Entry	Trade Visibility
Trader	A user representative of a Trading Firm, who can be associated as the Lead Trader for specific deals in CME ClearPort.	None. Trader users do not have trade entry privileges. For single-sided deals, either a Broker or an Asset Manager must enter deals on behalf of the Trading Firm.	Traders can view only those deals for which they have been selected as the Lead Trader.
Single-Side Trader	A user representative of a Single-Side Trading Firm who can enter alleged deals.	Single-Side Trader users have privileges for single-side entry of alleged deals. When a counterparty selects the Single-Side Trading Firm on the opposite side of an alleged deal, the firm's Single-Side Traders are visible and eligible for selection. When a counterparty enters an alleged deal, it selects a firm as the counterparty on the opposite side that is a Single-Side Trading Firm, an Asset Manager Firm, or a Broker Firm.	A Single-Side Trader can view submitted deals (including alleged deals)
Broker and Dual-Sided Submitter	A user representative of either: <ul style="list-style-type: none"> • A Broker Firm that mediates transactions between a Buyer and Seller on a deal. • A Trading Firm seeking to enter dual-sided deals, even if not acting as a transaction intermediary. • A FCM entering trades on behalf of one or both transaction participants, even if not acting as an intermediary. 	The Broker enters the deal in the CME ClearPort Trade Entry screen for each Trading Firm it represents. The Dual-Sided Submitter enters a deal, assigning themselves as one side of the transaction and selects the counterparty for the other. The FCM enters the deal on behalf of one or both transaction participants.	A Broker and Dual-Sided Submitter can only view the deals that they enter.
Asset Manager	A user representative of an Asset Manager Firm that mediates transactions between a Buyer and Seller on a deal.	An Asset Manager can enter an alleged deal to be claimed by the counterparty, or matched to a corresponding alleged deal entered by the counterparty. The Asset Manager enters transactions in the CME ClearPort single-sided trade entry screen or can claim alleged deals for each Trading Firm they represent.	None

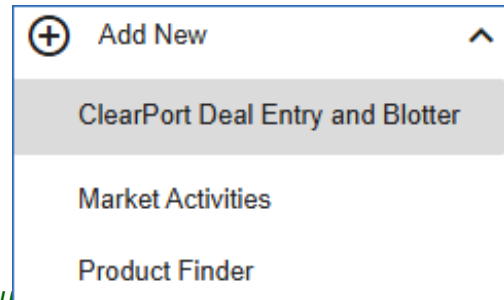

Role	Description	Trade Entry	Trade Visibility
Trade Administrator	An administrative user representative of the Trading Firm.	None. Trader Administrators do not have trade entry privileges.	A Trade Administrator can view all transactions entered for a Trading Firm.
Single-Side Trader Administrator	An administrative user representative of a Single-Side Trading Firm.	A Single-Side Trader Administrator has all trade entry privileges of a Single-Side Trader. In addition, when an alleged deal has been entered, the Single-Side Administrator is the only user that can claim the alleged deal for the opposite side firm.	A Single-Side Trader Administrator can view all deals (including alleged deals) entered by the Single-Side Trading Firm, and all deals alleging the Single-Side Trading Firm on the opposite side.
Broker Administrator	An administrative user representative of a Broker Firm.	None	A Broker Administrator can view all transactions entered for by Brokers in the Broker Firm.
Asset Manager Administrator	An administrative user representative of the Asset Manager Firm.	An Asset Manager Administrator has all trade entry privileges of an Asset Manager. In addition, when an alleged deal has been entered, the Asset Manager Administrator can claim the alleged deal for the opposite side Trading Firm.	An Asset Manager Administrator can view all Asset Manager transactions.
Verification Officer	For any type of firm, the administrative user representative is given CME ClearPort Administrator privileges for all product lines. This user is given a combination of the following roles: Trader Administrator, Broker Administrator, Asset Manager Administrator or Single-Side Administrator. The Verification Officer can view lists of firm users, and add and remove firm users by contacting Enterprise Access and System Entitlements (EASE) .	None	The Verification Officer can view all firm deals for all users.
Clearing Firm Administrator	An administrative user representative of a Clearing Firm.	None	A Clearing Firm representative that is permissioned to view all deals for Trading Firm accounts that the Clearing Member holds.
Clerk	A Clerk can enter and submit trades /	On the Trade Entry / Blotter	For entered trades, a Clerk can

Role	Description	Trade Entry	Trade Visibility
	<p>deals on behalf of brokers, asset managers or active traders at their firm.</p> <p>Upon request from a designated firm officer or administrator, this role is assigned by CME Group.</p>	<p>screens, a Clerk can enter, submit, and copy deals trades on behalf of Brokers, Asset Managers or Active Traders at their firm.</p> <p>The Clerk cannot be selected as designated for deals.</p> <p>The Clerk can void / cancel and void their non-matched deals.</p>	<p>view the designated Broker, Asset Manager or Active Traders.</p> <p>They can view the Trade Summary report for their submitted trades, or for trades submitted by others in which they were a participant.</p> <p>A Clerk is identified by their first initial and last name.</p>

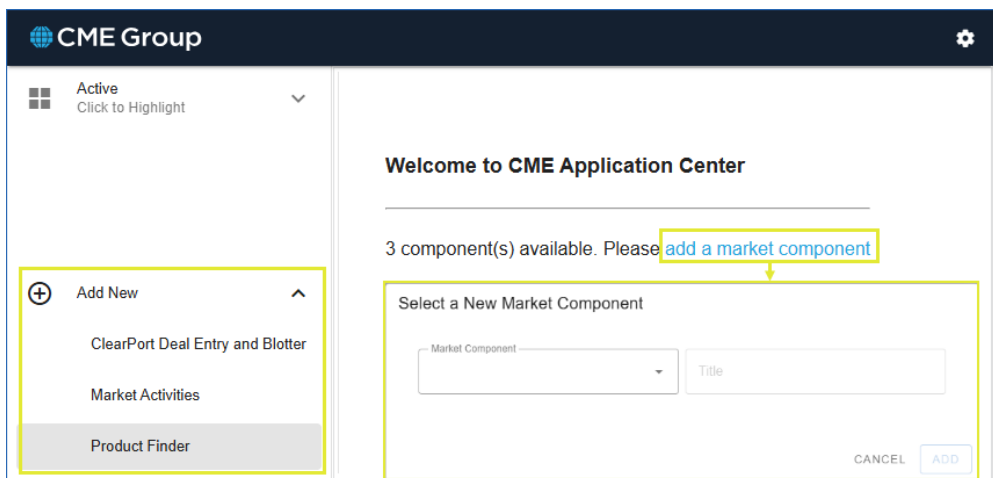

Application Layout

CME ClearPort initially opens with a blank screen. Before submitting deals and to view market activity, select from available **Market Components**.

- ▶ **To access and organize Market Components:**

1. To access market components select the **Add New** (+) menu (lower-left).

Available components

- **ClearPort Deal Entry and Blotter:**
 - [Deal Entry](#) - Enter new / proposed deals.
 - [Blotter](#) - View submitted deals, clearing status of previous submissions and matched-trade activity.
- **Market Activities:** For blocks and invoice blocks, view recent market activity (example: product, price, quantity) for the current day or past 10 days.
- **Product Finder:** Browse a list of available products / contracts that can be added to the [Deal Entry](#) screen.

Additional methods to add components:
A. From the home page select **add a market component**.

Welcome to CME Application Center

3 component(s) available. Please [add a market component](#)

Select a New Market Component

Market Component Title

CANCEL

or

B. From an open market component, select the blue + (add new) icon, then select the **component** and panel **location**.

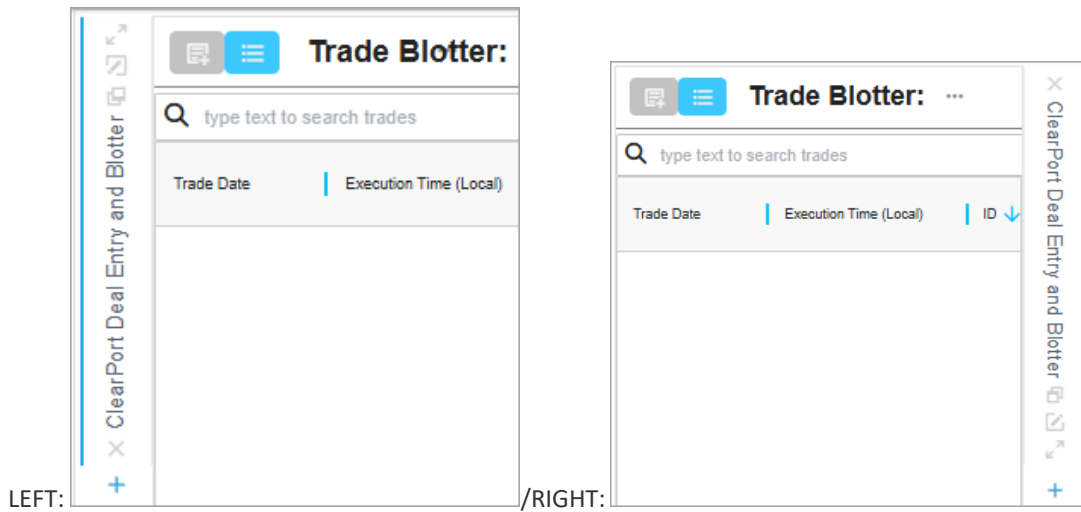

2. Select a panel to organize the selection.

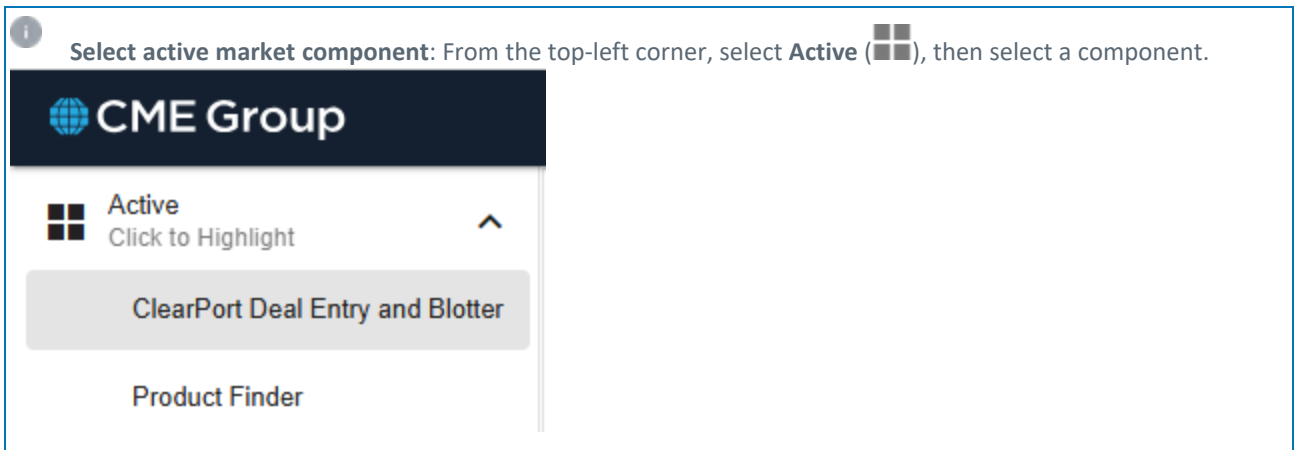

Panel location / tab:

- MAIN / TOP / BOTTOM:

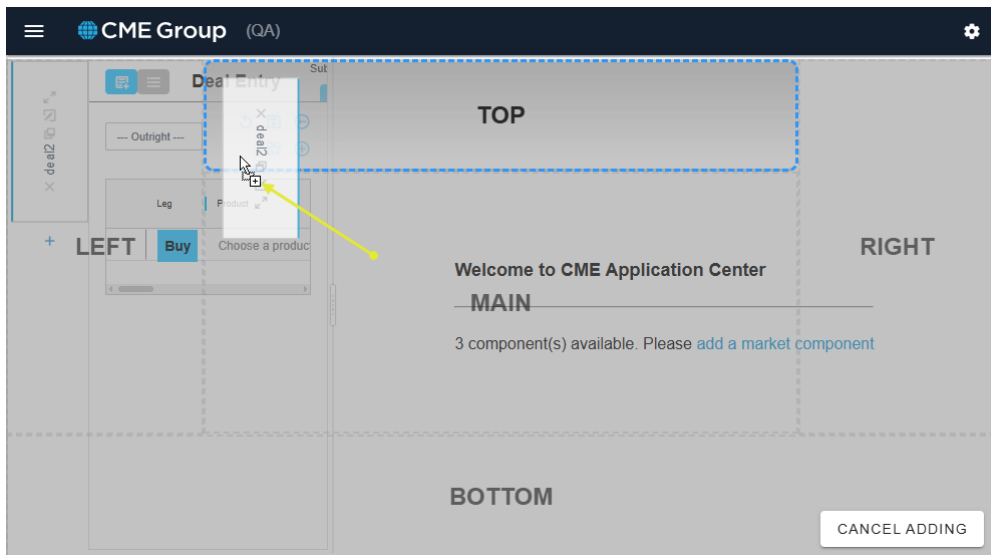

Multiple market components placed in the same panel are organized in a tabbed layout, including multiple versions of the same market component.

Market Component Options

Select from additional options to customize the layout.

- **Close** (✕) the market component.
- **Drag** market components to another panel.

- **Popout** (🗑️ - 🖥️ - 🏠): Open market component in a separate browser (or back to main 🏠).
- **Edit tab**: To identify multiple versions of the same component, enter a custom **Title** by selecting **Edit Tab** (🔗).

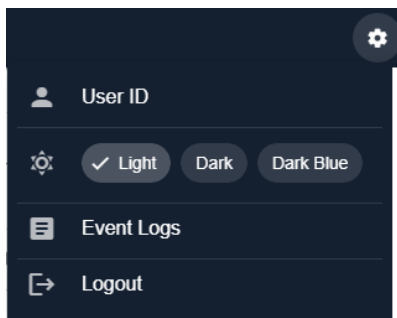

- **Full screen** (🗑️ 🖥️): Maximize the viewable area of the tab (Undo: select 🗑️ or press **ESC / F11** on the keyboard).
- **Select a New Market Component**: From an open market component, select the **blue +** (add new) icon, then select a **component** and **location**.

Settings

Settings are included to customize appearance, view system events or logout. From the top-right area, select settings (⚙️).

- **Theme**: Adjust screen appearance; Light, Dark, Dark Blue.

- **Event Log**: A record of system events to monitor application performance.

- **Logout** (👉): Exits the current CME ClearPort session and returns to the main CME Platform page.
An additional option is available to logout completely from the CME Customer Center menu and applications.

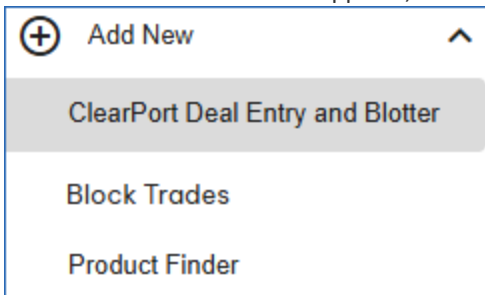

Deal Entry & Blotter

Use the *Deal Entry & Blotter* component to submit proposed deals and pre-negotiated OTC deals, view status and details of submissions. Available market components, participant information, products are determined by assigned user [role](#) and [account](#) configuration; set up from the [Account Management Service](#).

► **To access the Trade Entry & Blotter component:**

Select the *Deal Entry* () function to enter details of single and dual sided deals and allege to a counterparty or Broker / Asset Manager firm.

1. From the bottom-left [menu](#) select **Add New** ()
2. From the menu that appears, select **ClearPort Deal Entry & Blotter**.

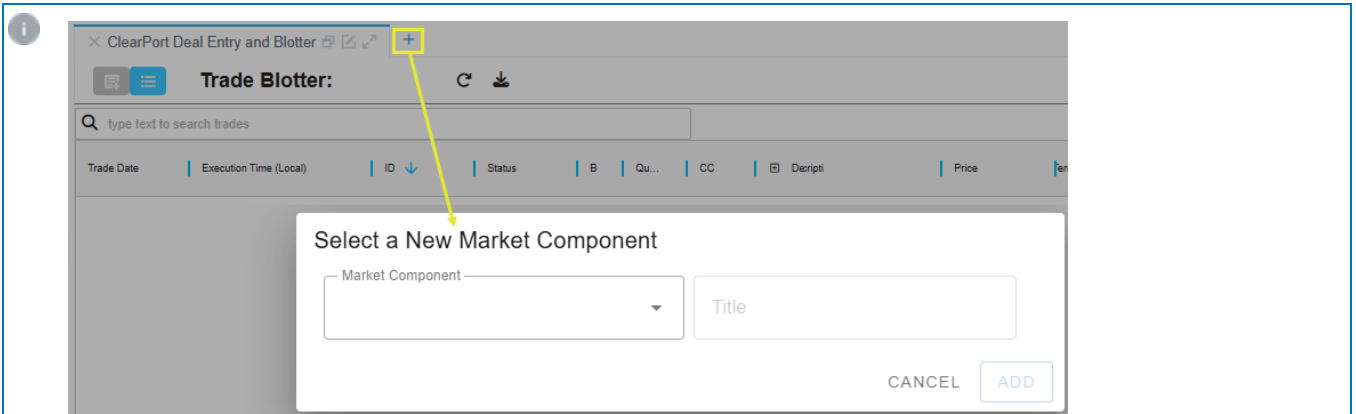

2. Select a screen [panel location](#).

Additional methods:

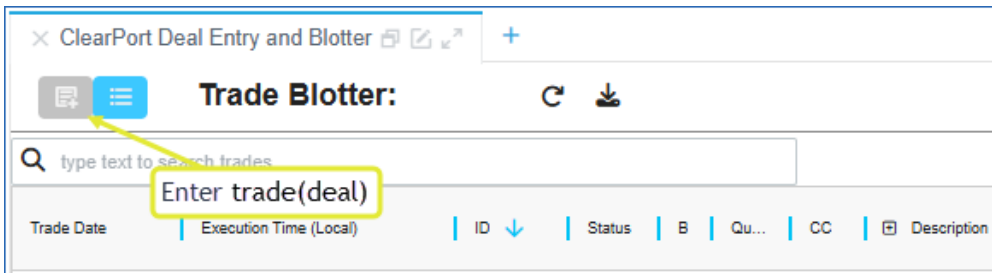

- a. From an open market component, select the blue + (add new) icon, then select the **component** and [panel location](#).

b. From the home page select the **add a market component** link.

3. Select **Enter Trade** ( - i.e. deal) .

Deal Entry Interface

The Trade Entry market component consists of the following sections and functions. For additional information, see [Entering a Deal](#).

- A. **Submitting.** Indicates the user entering deal information; select if necessary.
- B. **Trade Type:** OTC transaction types available for selection - Block, EFP, EFR/EOO, OPNT, SWBLK
- C. **Trade Side:** Selection determines side and participant information required for the deal - Dual-Side, Single-Side Buy, or Single-Side Sell. Based on the selection, buyer participant information appears on the left panel.
- D. **Strategy:** Trade strategy type (default: Outright).
- E. **Product Leg(s):** Product information (price, term, quantity, settlement, etc), including buy/sell side for the leg(s).
- F. **Product menu:** Add leg (+), clear all (↺), save entered details as a draft (📄), manage [trade drafts](#) (↻).
- G. **Participants:** Enter *account information* and *opposite side* participant information for the proposed deal.
The buyer participant appears on the left panel.
- H. **Cross Exchange:** Marks the deal as a cross-exchange give-up; consisting of a CME group exchange product *and* non-CME Group exchange product.
- I. **Date / Time:** The date and time the trade occurred (24 hour format).
- J. **Submit / Cancel:** **Submits** a deal for review and clearing.

Entering a Deal

Using the **Deal Entry** function on the **ClearPort Deal Entry & Blotter** screen, [authorized users](#) can enter details of single or dual-side deal and submit to the counterparty.

 To access ClearPort Deal Entry & Blotter, see [Adding market components](#).

For single-side deal submission:

- The submitter enters one side of the pre-negotiated deal / trade and all required product and participant identifiers to a counterparty.
- The opposite side trading participant (counterparty) submits the corresponding single-sided deal including unique identifiers.

For dual-side deal submission:

- The submitter enters both sides of the pre-negotiated deal (Buyer/Seller) and all required identifiers.
- The opposite side trading participant accesses CME ClearPort - [Trade Blotter](#) to review and accept the submitted deal.

Submitted deals are validated for type, account, participant, product, and credit limits. After validation is successfully completed, the deal is matched and sent to CME Group for clearing, after which acknowledgments are sent to participants. If applicable, rejected trade acknowledgments are also included.

Information is also available from the [Trade Blotter](#).

Deal Entry Process

The following diagram and instructions illustrate the process to access the ClearPort Deal Entry component to enter a single or dual side deal and submit for matching and to CME Group for clearing.

▶ **To enter a trade (Deal Entry):**

A. Select Deal Entry & Blotter

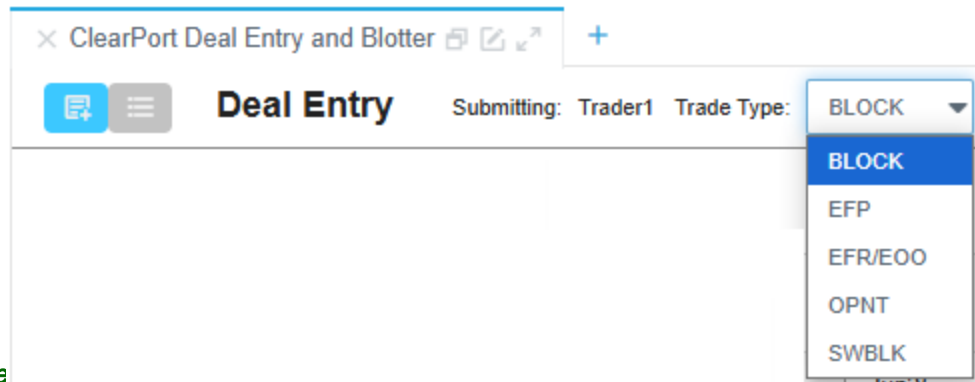

Prior to entering a deal, ensure the [ClearPort Deal Entry and Blotter](#) market component is selected.

1. On the **ClearPort Deal Entry & Blotter** screen, select the **Enter Trade** ( deal) icon.

B. Submitter / Trade Type / Strategy

2. (optional) If logged in user has access to multiple trading participants, select the **Submitting** participant.

3. Select the **Trade Type** submit.

- **Block:** Privately negotiated futures, options or combination transactions that meet certain quantity thresholds executed apart from the public market. Minimum order size requirements vary according to product and order type. Only negotiated with futures, options on futures, and CBOT swap deals (excludes all other basis trades).
- **Derived Block:** A Block trade where the final price and quantity are not fixed at the time of the initial agreement, but are "derived" from hedging transactions that occur in a related market immediately after the deal is made.
- **EFP:** Exchange for Physical Trade. Privately negotiated and simultaneous exchange of a futures position for a cash position.
- **EFR/EOO:**
 - **EFR:** Privately negotiated simultaneous exchange of a futures position for a corresponding OTC swap or other OTC instrument.
 - **EOO:** Privately negotiated exchange of an option position for a corresponding OTC instrument or instrument with similar characteristics.
- **OPNT:** Over the Counter Privately Negotiated Trades.

Reporting options include:

- Previously Reported to Other SDR (if Primary Economic Terms only is selected for Report to CME Group SDR).
- Swap Data Repository is set to *Off Facility*.
- Primary Economic Terms only.
- Primary Economic Terms / Real-Time Reporting

i Report to CME Group SDR (Swap Data Repository).

- **SWBLK:** Swap Block - A cleared swap trade above the CFTC prescribed Block limits of the Swap Execution Facility (SEF) / Designated Contract Market (DCM).

i See also: Trading Services > [Trade Types](#) on the CME Group Client Systems wiki

4. Select the **Trade Side** to submit.

See also:
 - [Single-Side Trade Submission](#) and [Matching Single-Sided Trades](#) on the CME Group Client Systems Wiki.
 - [Dual-Side Trade Submission](#) on the CME Group Client Systems Wiki.

- **Dual-Side:** Participant details include **Buyer Information** (left panel) and **Seller Information** (right panel).

Buyer Information	Seller Information
<input type="text" value="Choose a Company"/> <input style="width: 90%;" type="text" value="Choose an Account"/> <input type="text" value="Choose a Trader"/> <input style="width: 90%;" type="text"/> <input type="text" value="Enter Order #"/> <input type="checkbox"/> Give-Up <input type="checkbox"/> Aggressor	<input type="text" value="Choose a Company"/> <input style="width: 90%;" type="text" value="Choose an Account"/> <input type="text" value="Choose a Trader"/> <input style="width: 90%;" type="text"/> <input type="text" value="Enter Order #"/> <input type="checkbox"/> Give-Up <input type="checkbox"/> Aggressor

- **Single-Side Buy:** Participant details include **Account Information Buyer** (left panel) and **Opposite Information - Single Side** (right panel).

Account Information (Buyer)	Opposite Information - Single Side
<input type="text" value="Choose a Company"/> <input style="width: 90%;" type="text" value="Choose an Account"/> <input type="text" value="Choose a Trader"/> <input style="width: 90%;" type="text"/> <input type="text" value="Enter Order #"/> <input type="checkbox"/> Give-Up <input type="checkbox"/> Aggressor	<input style="width: 90%;" type="text" value="Choose Allege To"/> <input type="text" value="Notes For Counterparty (Optional)"/>

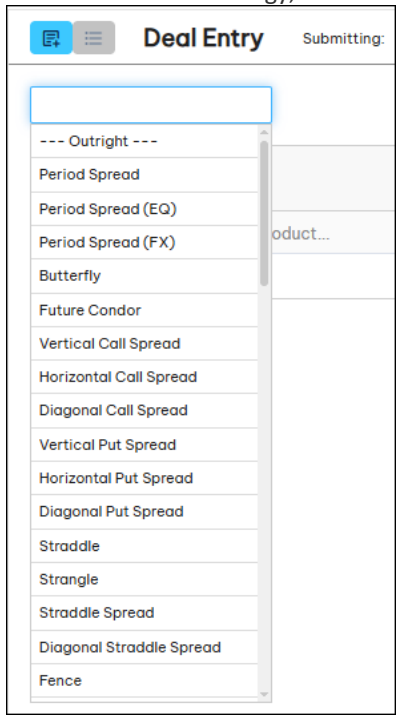

- **Single-Side Sell:** Participant details include **Account Information Seller** (right-panel) and **Opposite Information - Single Side** (left panel).

Opposite Information - Single Side	Account Information (Seller)
<input style="width: 90%;" type="text" value="Choose Allege To"/> <input type="text" value="Notes For Counterparty (Optional)"/> 	<input type="text" value="Choose a Company"/> <input style="width: 90%;" type="text" value="Choose an Account"/> <input type="text" value="Choose a Trader"/> <input style="width: 90%;" type="text"/> <input type="text" value="Enter Order #"/> <input type="checkbox"/> Give-Up <input type="checkbox"/> Aggressor

To enter participant information, see [D: Participants](#).

5. Select a **Strategy**.
 - The default selection is **Outright**.

To select another strategy, clear the field (), then select a *strategy*

The selected strategy will populate the Product panel with product leg(s) including **buy/sell** side.

Example: A straddle with two buy legs.

Straddle ?

	Leg	Product
×	Buy	Choose a product...
×	Buy	Choose a product...

See also: For additional information on strategies (e.g. simultaneous buy/sell of related instrument legs), see [Spreads and Combinations Available on CME Globex](#).

6. (if additional legs are added) Enter a **strategy price**, then select **Price Legs**.

--- Custom ---

5

8. Select a **product** search by instrument code/name product details for the outright/strategy leg(s), then enter

Leg	Product	Pricing Marker	Term	Strike	Type	Quantity (Units)	Price	Settlement Price
Buy	C: Corn Futures		May25			50 (Contracts/month)	500.0000	

Note: An alternate method to add a product to the deal entry field is to search the Product Finder, then drag the selected instrument to the Product Field. For instructions, see [Searching for Products](#).

Additional information available from the [Product Finder](#) include: Contract specs, related options instruments,

Product Details

To view additional product details, select the *Product Information tab* () *Product Code, Long Name, Minimum Quantity Increment, Outright Minimum Price Increment, Outright Minimum Block Threshold, Settlement Price (Date) / Currency, Low Price, and High Price*

Leg	Product	Pricing Marker	Term	Strike	Type	Quantity (Units)	Price	Settlement Price
Buy	BTC: Bitcoin Futures		Apr25			(Contracts/month)		

Product Code	BTC CME	Long Name	Bitcoin Futures
Minimum Quantity Increment	5 Index points / month	Settlement Price (Date) / Currency	/ USD
Outright Minimum Price Increment	Variable	Low Price	
Outright Minimum Block Threshold	25 Index points (5 Lots)	High Price	

- **Pricing Marker:** A selection menu may appear based on the selected product. To ensure market integrity, product prices are subject to [price banding](#), orders outside of a given band are restricted.
- **Term** - Automatically entered (day, month, year) based on selected instrument / contract specifications; optionally select a different month / year.

Note: For OTC FX Forwards, **Term** is replaced with a text entry field that requires entry of the contract's **Fixing Date**.

- **Strike:** Choose a strike price from the drop-down menu or manually enter a price.
This field is enabled for Options only and shows the strike price for the underlying instrument. Default values (**Term** and **Strike**) for Options Spreads vary depending on the product groups involved in the deal. The **Term**

field drop-down is populated with the term of the underlying instrument. The **Strike** field is blank and the drop-down is populated with currently available or previously listed strike prices.

Before submitting for clearing, review the term, default price, and ensure entered prices are valid.

- **Type:** Options type: Call or Put.
- **Quantity (Units)** (required) - Total quantity of units (e.g., contracts/month). Based on [contract specifications](#) of the selected product.
- **Price:** (required) The price of the outright instrument. Entered for each leg of the strategy.
- **Settlement:** The date and settlement price is automatically entered after the matched-trade is cleared. If unavailable, the previous day's settlement price and date will appear.
- **UTI:** Universal Transaction Identifier - Up to 52 characters.

Note: Multiple entries (separated with a comma) are permitted for side-level allocations; separated with a comma. The number of UTIs must match the number of allocations.
See also - [Universal Transaction Identifiers and CME ClearPort Trade Identifiers](#)

Deal Entry Menu:

- To select additional legs, select **Add Leg** (+).
- **Clear all** (↺): Clear all information to enter a new deal.
- **Save draft** (📄): Saves entered information to complete later or repeat frequently entered deals.
- **Show Trade Drafts** (+): Select to enter saved information on the deal entry screen.

D: Participants

For the select **deal entry mode**, specify: **Single**(see [step 9](#)) or **Dual** ([see step 10](#)).

Note: The submitter remains as the principal of the deal (left participant panel). **Buyer/Seller** updates based on the outright product or first leg of multi-leg deals.

- Specify **Single-Side** participant details: [Account](#) and [Opposite Information](#) to allege the deal to.

a. Account Information:

- **Single-Side Buy:** Participant details include *Account Information Buyer* (left-panel) and *Opposite Information - Single Side* (right panel).

Account Information (Buyer)	Opposite Information - Single Side

Buyer/Seller Information

- **Company:** Upon selection a list of frequently used firms appears. Select from the list or enter a portion of the name to view a list of matching firms.
- **Account:** Trading Account Number. Accounts authorized for the selected Company Name are displayed. Upon selection a list of frequently used accounts appears. Select from the list or enter a portion of the name to view a list of matching accounts.
- **Trader:** Participant submitting the deal.
- **Order #:** Identifies the transaction. Numbers are provided by the Buyer.
- **Give-Up:** Indicates if the deal will be given up to a different firm for clearing and processing.
- **Aggressor:** Indicates if Buyer is the aggressor in the transaction.

Note: To update available accounts, trader, broker, clearing firm selections, see the [Account Management Service](#) account setup instructions.

E: Date & Time > Submit Trade

11. (optional) If this is a **Cross Exchange** deal, select the checkbox.

(For Block / EFP / EFR-EOO / SWBLK): Marks the deal as a cross exchange give-up/allocation to a firm that trades in non-CME Group exchange product and intends to claim the deal after submission.

12. (optional) If submitting a **Voice Brokered** deal, select the checkbox.
13. Confirm the **Date / Time**; the date and time the deal occurred in 24 hour format.

<input type="checkbox"/> Cross Exchange	<input type="checkbox"/> Voice Brokered
Block Date - Execution Time (HH:MM:SS, 00-24, Local) Current	
<input type="text" value="11/25/2025"/>	<input type="text" value="08:23:41"/>
<input type="button" value="CANCEL"/>	<input type="button" value="SUBMIT TRADE"/>

Defaults to the local system time that this Deal Entry window appeared.

To enter the current time, click **Current**.

14. After complete deal entry, select **Submit Trade**.

The Deal Validation screen displays a summary of entered details, status and errors (if applicable) to resolve.

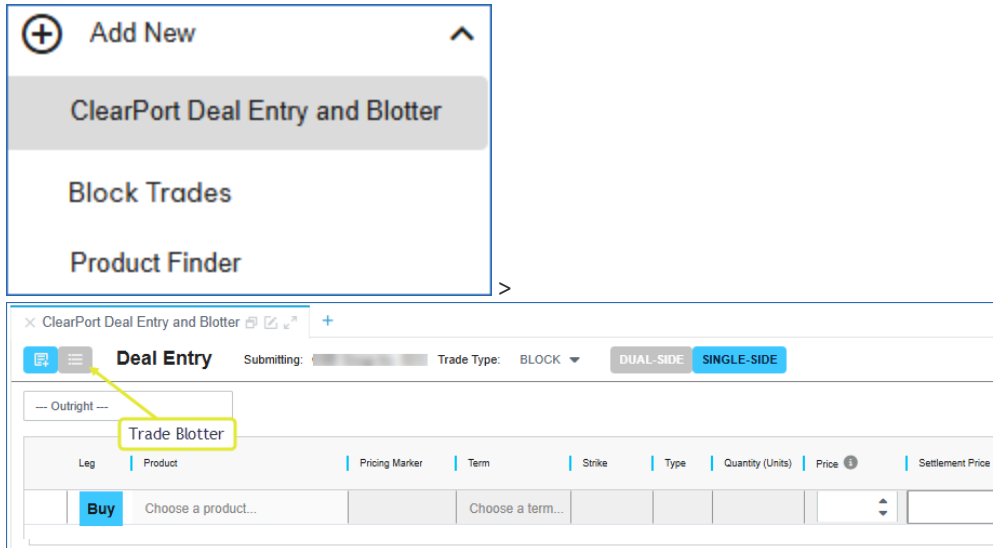

Trade Blotter

Use the **Trade Blotter** to view top of day transactions that have been entered and submitted to the CME Group clearing house, review allocation and manage pending deals. Data is available for up to two years.

Accessing the Trade Blotter

▶ To access the Trade Blotter:

1. From the top [menu](#), select **Add a Market Component > ClearPort Deal Entry & Blotter**, then select the Blotter ().

An optional **Title** can be used to identify the component.

2. Select the screen area for placement.

The screen defaults to a top of day view in descending date order. Selection fields are available to sort and filter results.

Heading and Search Options

The Trade Blotter interface consists of the following functions:

The screenshot shows the Trade Blotter interface. Callout 'a' points to the search icon, 'b' to the search input field, 'c' to the search button, 'd' to the menu icon, 'e' to the search input field, 'f' to the ID column header, and 'g' to the ID cell in the first row of the table.

Product Finder

Use the Product Finder to search for a product by its name or product code. Product information includes the base series, instruments, contract period, and availability for Block trades.

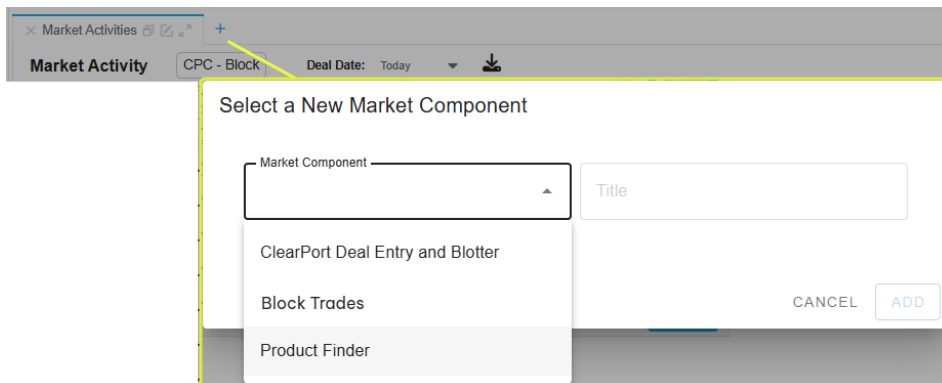

When a product is found, it can be directly added to the [Trade Entry](#) market component for single-sided deals.

Prior to accessing CME ClearPort, a firm administrator assigns order entry product permissions using the [Account Management Service](#) application.

Accessing the Product Finder

▶ To access the Product Finder (Market Component):

1. From the top menu, select **Add a Market Component > Product Finder**.

2. Select the screen area for placement.

An optional title can be used to identify the component.

Note: An additional Product Finder can be selected from the [market components](#) menu.

The screenshot shows two search windows. The left window has a search bar with 'gas' and an 'Outrights' toggle. The right window has a search bar with 'gas opt' and an 'Outrights' toggle. A yellow arrow points from the 'Outrights' toggle in the left window to the 'Spreads' toggle in the right window, indicating the filter change.

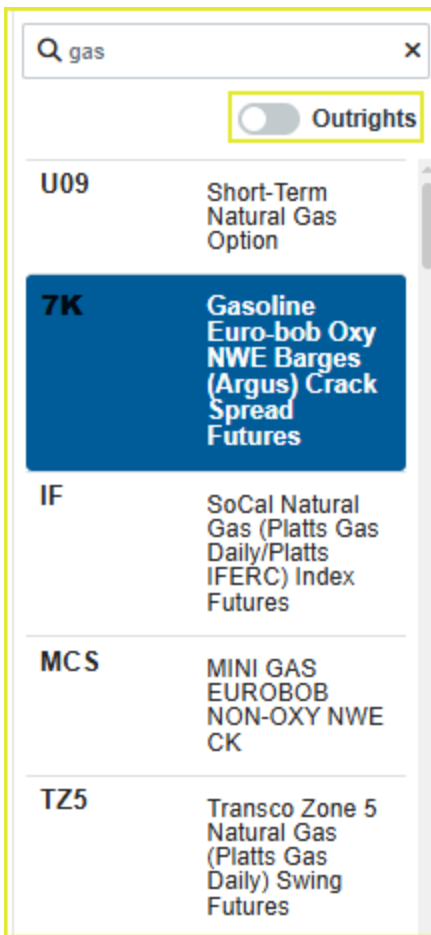

Select the slider button to filter by either **Outrights** or **Spreads**.

Searching for Products

The following instructions illustrates how to search for a product to view product information, as well as select a product for [deal entry](#).

► **To search for Products:**

1. From the **Product Finder** market component, enter product code, name or scroll the list, then select a **product**.

Information for the selected product appears on the right panel.

Block Trades

Use the Block Trades component to view a record of Block / Invoice Block trades reported to the market, and add a deal for the same or similar product and contract terms.

▶ **To access Block Trades:**

1. From the home page, select [Add a Market Component](#) > **Block Trades**, then select the screen area for placement.

Select a New Market Component

Market Component: Block Trades

Title: Block Trades

CANCEL ADD

An optional Title can be used to identify the component.

2. Select a screen panel.

Multiple instances appear can be placed in different screen panel or arranged in the same screen panel in a tabbed layout.

Block Trades Interface

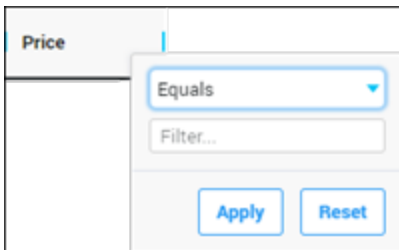

From the Block Trades screen, the following functions are available:

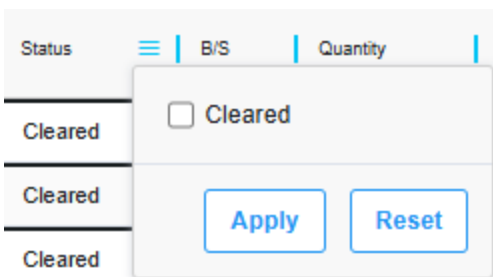

- a. **Deal Date:** To view activity for the selected date select the drop-down menu. Activity is available for the past 10 days.
- b. **Refresh Activities:** (🔄) Updates the screen with the latest deal activity.
- c. **Export / Download** (📄): Export (download) displayed market activity as a .csv format file.
- d. **Column Settings:** Select additional columns to include in the layout.
- e. **Search:** Filter activity by search criteria. Partial entries will update the list as entered.
- f. **Column Heading Filter** (☰): From the column heading, select to view specific activity or sorted data.

A filter funnel (📏) icon indicates user selected data is shown.

Search filter - Enter a *value*, then select an operator to apply to the entered value; *Contains, Not Contains, Equals, Not Equal, Starts with, Ends with, Blank, Not Blank*. An icon (📏) indicates that filtered results are shown.

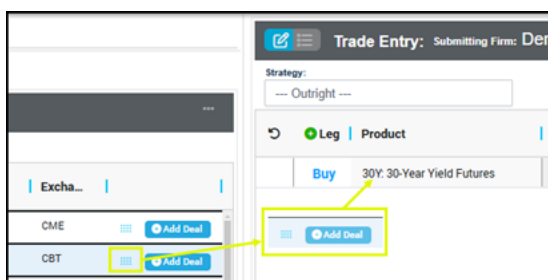

Selection filter

Sort: Select a heading to switch column sorting from *descending* to *ascending* order.

- g. **Add to Trade** (📌 - Drag): To add an instrument from the list:
Select and drag (📌) the **instrument** to the **Trade Entry** screen > **Product** field.

- Product fields will update with contract and settlement data.
- h. **Add Deal:** Select to add the deal to the Trade Entry screen with the selected product / instrument automatically entered.

Before selecting **Add Deal**, ensure the Trade Entry & Blotter function is open.

Note: Continue to enter [Trade details](#); including trade type, strategy, additional products / product legs

Column Settings

The following columns are available for selection from the [Block Trades](#) and [Trade Blotter](#) components.

Column	Description
B/S	The side of the deal; Buy (B) or Sell (S).
Buyer Account	The respective registered Trading Account of the Buyer.
Buyer Firm	The firm that is buying the product.
Buyer Name	The registered buy-side user name.
Buyer Principal	The Principal company that is buying the product.
Buyer Submitter Name	The registered buy-side user that submitted the deal.
Category	Product category.
CC	ClearPort Product Code.
Created Time	System assigned localized time that the transaction was entered.
Description (Description)	Includes details about the contract maturity date(s), including multiple products in a deal. To view all legs of a spread, select (Description) to expand the description. Strategy or combination transactions that include more than one leg will contain a summary section and a row for each leg beneath the summary. For Strips, Packs, Bundles, and strategies only the first and last legs are displayed by

	default.
Exchange	Exchange and Clearing Organization where the deal was executed.
Execution Time (Local)	Date and time the deal occurred. Defaults to the your local system time.
ID	Primary deal identifier.
Order No	User specified order number.
Other ID	Optional deal identifier.
P/C	P (Put) or C (Call).
Price	Price (Percent of Par) per individual unit in the contract.
Product	The product being proposed.
Quantity	The total amount of units in the transaction. Displays the amount of entered and cleared units.
Ratio	Option ratio spread.
Seller Account	The respective registered Trading Account of the Seller.
Seller Firm	The firm that is selling the product.
Seller Name	The registered sell-side user name.
Seller Principal	The Principal company that is selling the product.
Seller Submitter Name	The registered sell-side user that submitted the deal.
Source	System used to enter the deal.
Status	<p>The following status indicators apply to the entire deal:</p> <ul style="list-style-type: none"> • Pending: Pending validation. • Unmatched: Status of a deal for the submitting party pending match or claim by the alleged counterparty. • Canceled: Status of a deal once an "Unmatched" deal is canceled by the submitter. • Alleged: Status of a deal pending acceptance by the alleged counterparty. • Cleared: Deal has cleared. • Cleared FEC Reject: Sent by the <i>Front End Clearing (FEC)</i> system in response to an invalid request. • Declined: Status of a deal when the alleged counterparty has rejected the deal because at least one transaction component is not valid. • Expired: Status of a deal that has been Expired by the exchange. Deals that have not been matched or claimed by close of business prior to a coupon date will be expired by the exchange. • Reject: System reject, or deal, contract validation, allocation / reversal rejected. • Void: Cleared transaction has been canceled by the submitter or exchange administrator (CME Group - GCC).
Strike	Options contract strike price.

Submitter Name	The registered user name of the user that submitted details.
