1 Definitions and Interpretation

The following definitions shall apply only to this Product Appendix: Bonds in addition to the definitions contained in the Rulebook.

Bid	means, in relation to Outright Transactions, an Order stating a willingness to buy a Cash Security at, or within, the price indicated.
Cash Security	means those Securities set out in Annex 1 or as notified by the Operator from time to time which are eligible to be traded on BrokerTec.
Central Counterparty	means the applicable Central Counterparty as set out in Annex 1.
Offer	means, in relation to Outright Transactions, an Order stating a willingness to sell a Cash Security at, or within, the price indicated.
Outright Transaction	means: <ol style="list-style-type: none"> 1. in relation to a Bilateral Market, a contract between two Participants in a Cash Security arising out of a Match of a Bid and an Offer in accordance with the Agreements and the Rulebook; and 2. in relation to a Cleared Market, the equal and opposite contracts in a Cash Security arising out of a Match of a Bid and an Offer in accordance with the Agreements, the Rulebook and the applicable Central Counterparty rules, such contracts being between the Participant submitting the Matched Bid and the Central Counterparty, as seller, and between the Participant submitting the Matched Offer and relevant Central Counterparty, as buyer.
Transaction	means an Outright Transaction executed on BrokerTec.

2 General

- 2.1 This Product Appendix sets out additional Rules for Participation and executing Transactions on BrokerTec to ensure the orderly conduct of business.
- 2.2 Where indicated, certain Rules in this Product Appendix have specific application to certain Transactions and Markets. The Rules are binding on all Participants.
- 2.3 BrokerTec is open for the trading of Cash Securities between 8:00am and 6:15pm Amsterdam time on the Trading Days set out in Annex 1.

3 Eligibility Criteria

- 3.1 In addition to satisfying the Eligibility Criteria set out in the Rulebook, the Participant shall satisfy and shall continue to satisfy all of the following Eligibility Criteria throughout its Participation:
 - 3.1.1 the Additional Requirements set out in the tables set out in Annex 1;
 - 3.1.2 unless otherwise exempted in writing by the Operator, for Government Securities, the Participant is a primary dealer in those Eligible Instruments; and
 - 3.1.3 for any Bilateral Market, the Participant has sufficient credit lines in place with a sufficient number of the existing Participants in the relevant Bilateral Market. The Operator shall assess a Participant's compliance with this requirement by reference to the size and nature of the Market itself, the number and nature of Participant's credit lines and trading relationships with other Participants and taking into account its responsibility to maintain an orderly market.

4 Trading Procedures

4.1 Submitting Orders - CLOB

- 4.1.1 In relation to Outright Transactions, where a minimum size is applicable, no Order shall be submitted for less than the minimum size specified in Annex 1 for the relevant Market.
- 4.1.2 The Operator may add additional transaction types from time to time, and shall update this Product Appendix accordingly.

4.2 Treatment of Orders – CLOB

- 4.2.1 For any Order which has Hidden Volume, the Hidden Volume shall not be made available to the Matching process and/or shown in the Central Limit Order Book, as the case may be, until the whole of the Show Amount then existing for that Order has been filled, whereupon any unfilled volume from the incoming Fill Order shall be Matched against the remaining Hidden Volume from the top shown Order and then the next shown Order until all volume of the incoming Order is Matched.
- 4.2.2 Orders in a Bilateral Market may only be Matched with other Orders in that same Bilateral Market. Orders in a Cleared Market may only be Matched with other Orders in that same Cleared Market.
- 4.2.3 Whenever BrokerTec receives a Fill Order, it will undertake a Matching process between that Fill Order and the Central Limit Order Book whereby Bids will be Matched with Offers, or parts thereof, and vice versa, where the price of the Order on the Central Limit Order Book is equal to or within the price of the Fill Order.

4.2.4 All Matching of Orders submitted to the Central Limit Order will be subject to the ranking of Orders established in Rules 4.2.1, 4.2.2, 4.2.3, and any minimum part sizes imposed on such Orders.

4.2.5 Orders may be partially filled in the Matching process, except for a Fill or Kill Order, provided that no such partial amount will be in an increment of less than the minimum size (where applicable, as indicated in Annex 1).

4.3 Execution of Transactions – CLOB

4.3.1 Where a Match exists between a Bid and an Offer, or a part thereof in either case, BrokerTec will, subject to Rule 4.3.2 in relation to any Cleared Market and the cancellation provisions in this Product Appendix, execute the Transaction in respect of the Bid and Offer, or parts thereof, at the price displayed by the Order in the Central Limit Order Book. The Orders which are the subject of a Transaction will be removed from the Central Limit Order Book and/or the Matching process, as applicable, and, where only part of an Order has been the subject of a Transaction, the remainder shall remain in the Central Limit Order Book or the Matching process as applicable.

4.3.2 Where a Central Counterparty rejects Matched Orders in accordance with the Central Counterparty's rules (such as where the Participant is a defaulter within the meaning of the Central Counterparty's rules or the Order concerns a security not covered by the Central Counterparty's rules), the Transaction in respect of those Orders, shall be void ab initio, the Matched Orders shall be cancelled and neither the Operator nor the Central Counterparty shall have any liability in respect thereof.

5 Confirmations

5.1 Any Transaction executed shall be evidenced by a confirmation, which shall be sent by BrokerTec to the Participant that is party to the Transaction, promptly after the time that the Transaction is executed and which shall be made available to that Participant on an ongoing basis where reasonable. The confirmation shall include all relevant details, including (as applicable) the Cash Security, the clean price, and the time the Transaction was executed, and such confirmation shall, subject to manifest error, be deemed to be sufficient proof of the existence of a Transaction; provided, that if the Operator determines that any Transaction is executed in error by BrokerTec, the Operator shall notify the relevant Participant and such Participant shall not have any rights nor obligations in respect of such Transaction, which shall be null and void and the Operator shall have any liability in respect thereof.

5.2 In any Cleared Market, the Operator shall deliver the trade details to relevant Central Counterparty in respect of each Transaction.

6 Outright Transactions

6.1 In relation to any Outright Transaction, the Participant acknowledges and agrees that the price for each Order is quoted clean (which means exclusive of accrued interest) and the price to be paid or received on settlement of a Transaction arising out of an Order may not be the price quoted.

7 Bilateral Market Rules

7.1 The Participant acknowledges and agrees that the price for each Order is quoted clean, where clean means exclusive of accrued interest, and the price to be paid or received on settlement of a Transaction arising out of an Order may not be the price quoted.

8 Error Trades

8.1 Suspected or alleged Error Trades in Transactions shall be treated in accordance with the Error Trade Policy in Annex 2.

Annex 2

Error Trade Policy

1. Objective

- 1.1. This Policy is issued pursuant to the BrokerTec EU RM Rulebook, the Product Appendix: Bonds and the Agreements. The purpose of this Policy is to set out the factors and process that the Operator may consider and employ when handling requests for cancellations of Transactions (as that term is defined in the Product Appendix: Bonds) offered on BrokerTec.
- 1.2. This Policy, together with the BrokerTec EU RM Rulebook, incorporates guidance from the Association for Financial Markets in Europe (“**AFME**”) market recommendation for electronic inter-dealer trade cancellation procedures approved by member firms of the AFME/Primary Dealers as of 24 November 2011.
- 1.3. In the event of conflict between the BrokerTec EU RM Rulebook, the Product Appendix: Bonds and the Agreements, the following order of precedence shall apply to the extent of any inconsistency: 1. this Policy; 2. the Product Appendix: Bonds; 3. the Rulebook; and 4. the Agreements.
- 1.4. In administering the procedures set out in this Policy, the Participant agrees that the Operator shall not be responsible for the performance or cancellation of any Transaction by any counterparty and shall not have any liability in respect thereto.
- 1.5. This Error Trade Policy applies to all Participants including non primary dealer Participants.

2. Additional Definitions

- 2.1. In this Policy, the following words and expressions have the following meanings:

“**Error Trade**” means any Transaction determined to be “inconsistent” in accordance with paragraph 3 of this Policy.

- 2.2. All other capitalised terms used in this Policy shall have the meaning ascribed to them in the Rulebook and Product Appendix: Bonds.

3. Error Trades – Transaction Cancellation Procedure

Manifest error: calculation of an off-Market Transaction

- 3.1. A Participant may request that a Transaction be reviewed (a “**Review Request**”) in accordance with this Error Trade Policy only within 5 minutes of the execution of Relevant Transaction. For the avoidance of doubt, a Review Request received by the Operator within **5 minutes** of the time of execution validly invokes this Error Trade Policy irrespective of whether the counterparty to the Relevant Transaction has been notified of the Review Request within the 5 minute timeline. Participants agree that the Error Trade Policy cannot be invoked for any Review Request received later than 5 minutes from the time of execution. No later than five (5) minutes after receipt of a valid Review Request, the Operator shall inform the counterparty involved. Any Review Request received later than 5 minutes from the time of execution shall be treated as a validly received Cancellation Request and Rule 17.3 to Rule 17.13 of the Rulebook shall apply.
- 3.2. In the event that a Participant validly submits a Review Request in accordance with paragraph 3.1 of this Policy, the Operator shall:
 - 3.2.1. take the actions required under Rules 17.4 to 17.8 of the Rulebook to enquire with the Other Participant as to whether they agree to bilaterally cancel with Relevant Transaction with the Requesting Participant; and

- 3.2.2. if the Other Participant does not so agree, then in accordance with the procedure set out herein, the Operator shall verify whether the Relevant Transaction was executed at a price level which is “inconsistent” with the market value at the time of execution. To be “inconsistent” with the market value, the price at which the Relevant Transaction was executed must have been a price that was greater than 50% outside the average buy/sell market price (the “**Bid/Offer Spread Price**”) on a specific Eligible Instrument at the time of execution of the Relevant Transaction, calculated as set out below.
- 3.3. In the event that BrokerTec had between three (3) and five (5) existing two-way quotes at the time of execution of the Relevant Transaction, the Operator shall use those quotes in order to calculate whether the Relevant Transaction is greater than 50% outside the Bid/Offer Spread Price.
- 3.4. In the event that BrokerTec did not have between (3) and five (5) existing two-way quotes at the time of execution of the Relevant Transaction, the Operator shall select up to five (5) Participants, but no less than three (3) (excluding the counterparties to the Relevant Transaction) (the “**Surveyed Participants**”) to provide a two-way Bid/Offer quote, ie. the quote of a firm two- way inter-dealer price, they entered into or would have entered into for that Eligible Instrument on BrokerTec or any similar inter-dealer electronic trading platform at the time of the Relevant Transaction. The Surveyed Participants shall communicate those two-way Bid/Offer quotes to the Operator as soon as possible after the Operator’s request.
- 3.5. The Participants who are counterparties to the Relevant Transaction shall not contact any of the Surveyed Participants concerning the Relevant Transaction or its proposed cancellation.
- 3.6. The Operator, if so requested by both counterparties to the Relevant Transaction, may distribute the prices provided by the Surveyed Participants used in the calculation but not the names of the Surveyed Participants.
- 3.7. Where only three Participants are able to communicate their Bid/Offer quotes, those three quotes will be used to determine the Bid/Offer Spread Price.
- 3.8. Where four Participants are able to communicate their Bid/Offer quotes, then after excluding the lowest Bid price and the highest Offer price, the average of the remaining quotations shall be calculated by the Operator in order to determine the Bid/Offer Spread Price.
- 3.9. Where five Participants are able to communicate their Bid/Offer quotes, then after excluding the highest and lowest Bid price (while keeping the corresponding Offer price), and the lowest and highest Offer price (while keeping the corresponding Bid price), the average of the remaining quotations shall be calculated by the Operator in order to determine the Bid/Offer Spread Price.
- 3.10. The Operator shall conclude that the Relevant Transaction is an Error Trade if the Relevant Transaction was executed at a price that was greater than 50% outside the Bid/Offer Spread Price and subject to paragraph 3.11 below, shall notify the counterparties to the Relevant Transaction of its conclusion as soon as reasonably practicable but no later than 30 minutes from the time of execution of the Relevant Transaction.
- 3.11. Where a counterparty notifies the Operator of the existence of exceptional market conditions, or in the view of the Operator there are exceptional market conditions, the Operator is not required to notify the counterparties of its conclusion within 30 minutes as set out in 3.10 above.
- 3.12. If the Relevant Transaction is determined to be an Error Trade under this paragraph 3, the counterparties may promptly agree to cancel the Relevant Transaction and notify the Operator.
- 3.13. If none of the procedures above result in a conclusion that is acceptable to both counterparties to the Relevant Transaction, the Operator shall reveal the name of each counterparty to its counterparty. If at this stage an agreement is reached, it shall be notified to the Operator.
- 3.14. Where the Relevant Transaction is determined by the Operator to be an Error Trade but no agreement is reached between the counterparties to the Relevant Transaction in accordance with paragraph 3.12, the Operator may cancel the Relevant Transaction.

3.15. Where the Relevant Transaction is cancelled:

3.15.1. the Operator will promptly inform the relevant Central Counterparty or settlement system; and

3.15.2. the counterparties shall take all such action required to effect the cancellation of the Relevant Transaction. Failure by any Participant to comply with any instruction from the Operator to effect the cancellation of a Relevant Transaction is a material breach of the Rulebook and the Agreements.
